

FREE INFECTION CONTROL TRAINING WITH GOTAFE

GOTAFE are helping to keep businesses within our community safe by offering two **free** accredited Infection Control Skill Sets. The new training will be delivered completely online and is tailored specifically toward Infection Control for people currently employed in Victoria in a customer-facing role.

For businesses, the accredited training provides the skills for your staff to follow organisational infection prevention and control procedures, including implementing standard and transmission-based precautions and responding to COVID-19 and other infection risks.

Each skill set will take approximately 25 hours to complete and you can do this in your own time provided the training is complete within four weeks from commencement. To be eligible to apply for this free skill set, you must be currently employed in Victoria in a customer-facing role.
